

Dear Commissioner,

I have attached documents in relation to a complaint I made to GSOC Ref [REDACTED]

The reason I am submitting this for your consideration is to demonstrate how weak and ineffective GSOC are and were not prepared to follow up on my legitimate complaint.

The decision to discontinue the investigation in my opinion was disgraceful and made a laugh of the system.

Kind regards,

[REDACTED]

Dear Commission,

I wish to make a submission to the commission in relation to a conflict of interest or potential bias in relation to court hearings in many towns , if not every town in Ireland on a weekly basis.

It concerns the prosecuting Gardai, Solicitors and the Judge all sitting around the same table enjoying lunch and having a very cosy time.

I have seen this in many towns all over Ireland and it is a practice that I believe should be outlawed. I am conscious that everybody is entitled to have a lunch but how would it look if the presiding Judge was having lunch with a defendant in a criminal case.

How can the system be independent with this type of behaviour going on. Our court system states that, not only must justice be done but justice must be seen to be done.

Kind regards,

██████████
