Title of Submission:	Robbery and housebreaking
Comments:	<p>I am making this submission after listening to Joe Duffy program re Tool robbery and the near negligible recovery or conviction.</p> <p>I feel house break in comes within the same category. Both the Garda and the Judicial system fail make any inroads towards solving matters. Years back I had experience of the latter.</p> <p>Advancing years makes this situation more worrying. Reassurance from senior Garda of all being well and that they are on top of the problem does not help, we would be more re assured if they demanded publicly what ever is necessary to come to grips with criminality .Being on the same hymn sheet as the minister of the day and the politicians does not necessarily serve the public well. I am conscious of the high level of more serious crime and I appreciate the amount of resources needed. The two issues noted by me above however seem to be never highlighted. I cant help feeling that they are regarded as of little consequence . however to victims who may have spent a lifetime of paying taxes etc . deserve better.</p> <p>Rgds █</p>
