Comments:	<p>██████████</p> <p>A huge need for training with in garda siochàna is out standing. I have ██████████ and I have received two classes in relation to training. This is not acceptable in any job. With new legislation coming out an email is not acceptable.</p> <p>In relation to community side of the garda siochàna role - mediation services between neighbours needs to be set up as if the issue is not criminal the garda should not be involved.</p> <p>Guards should not be left to deal with mental health members of the public. It is not acceptable to arrest a person with mental health issues and bring them to a garda station this adds more stress to the person. There should be a nursing/ doctor unit set up for 24 hours a day to deal with emergency situations.</p> <p>The garda siochàna need to grow a back bone when it comes to dealing with youths. 9, 10, 11 Jlo's for one youth is not acceptable anymore. The youths are laughing at the justice system which they are wrong too.</p> <p>But at the end of the day until suitable management is in place the garda siochàna will never change. Which members treating legal action over every correct decision being made control will remind lost in the job. If a person is not doing there job there should be correct procedures in place to make that person do there job or fire them. Control has been very much lost in the job and once you Claime bulling or similar you are untouchable in the job which is very unfair to the member complying with the rules and doing their job to a high standard.</p>
