Title of Submission:	Adequate management and supervision
Comments:	<p>As the wife of a Sergeant in AGS, I frequently hear my husband bemoan his role as being administration ladened, resulting in the lack of supervision for his members out and about on the street.</p> <p>My husband is a young man who wants to get out and about with his members and focus on working with the community, tackling crime and supervising the work of his members. Unfortunately, he says that this is not possible due to the extremely heavy admin workload which keeps him indoors and out of public view.</p> <p>It would be my submission that sergeants and inspectors need to be relieved of a vast amount of the admin work and free them up to get out and about to ensure that the work is being done, out in the ground, correctly.</p>
